

Best Practices in Product Innovation: What Distinguishes Top Performers (Authored by Drs. R. Cooper, S. Edgett and E. Kleinschmidt, Copyright © 2003)

TABLE OF CONTENTS

Table of Exhibits	v	6 The Role of Product Definition & Product Advantage	53	Note and References	196
		6.1 Competitive and Product Advantage	53	About the Product Development Institute	198
		6.2 Sharp Early Product Definition Before Development Begins	56	About the Authors	199
1 Introduction	1	7 Resources Allocated to NPD	59		
1.1 The Quest for Best Practices in Product Innovation	1	7.1 Resource Availability by Functional Areas	59		
1.2 The Research Questions	2	7.2 Project Team Focus and Dedicated Resources to the Project Team	61		
1.3 The Topic Areas Studied	2	7.3 Portfolio Management – Resource Allocation and Selecting the Right NPD Projects	63		
1.4 NPD Performance Metrics	3				
1.5 How the Research Was Undertaken	4				
1.6 Organization of the Results	6				
2 New Product Performance – A Look at Performance Results Achieved	7	8 The People: Culture, Climate, Teams and the Roles of Senior Management	70		
2.1 Percentage of Revenues and Profits from New Products	7	8.1 The Way NPD Project Teams are Organized	70		
2.2 Success, Fail and Kill Rates	8	8.2 The Climate and Culture for Innovation and NPD Within the Business	73		
2.3 Time to Market	10	8.3 Senior Management Practices, Roles and Commitment to NPD	78		
2.4 On Time and On Budget	10				
2.5 NPD Projects Meeting Objectives	12	9 Summary of Findings – What Makes Winners	82		
2.6 Performance Metrics on Multiple Scaled Metrics	13	9.1 How Businesses Fare in Terms of the Various Best Practices	82		
2.7 Identifying the Performance Dimensions and Best Performers	15	9.2 The Top Ten Best Practices	85		
2.8 Testing the Four Performance Dimensions – Do They Make Sense?	17				
2.9 Defining the Best Performers	18	10 Conclusions and Recommendations	88		
2.10 How the Best Versus Worst Businesses Fare in Terms of Performance Metrics	19	10.1 Identifying the Best Practices in NPD is very complex – many pieces of the puzzle must be in place in order to achieve top performance	88		
3 Best Practices – Strategy and Metrics	21	10.2 Metrics are a Very Weak Area in NPD	88		
3.1 A New Product Strategy for the Business	21	10.3 New Product Practices and Processes are Broken in a great many businesses – there is much to be fixed before performance can be improved	89		
3.2 Types of New Products Developed	25	10.4 Some areas of Best Practice stand out as the major drivers of performance	90		
3.3 Metrics Used	27	10.5 Best Performers have a different mix of NP projects	97		
4 The Idea-to-Launch New Product Process and Practices	29	10.6 Six major theme areas emerge and they are interconnected	97		
4.1 A Systematic New Product Process	29	10.7 Concluding Comment	100		
4.2 Best Practices Built Into the NPD Process	34				
4.3 Quality of Execution of Key Activities in NPD Projects	37	Appendix - In-Depth Case Studies	103		
4.4 Spending on Up-Front Homework	43	1. Air Products and Chemicals Inc. – Chemicals Group	104		
5 Voice of Customer and Market Information	46	2. Bausch & Lomb	122		
5.1 Voice of Customer and Market Inputs	46	3. EXFO Electro-Optical Engineering Inc.	138		
5.2 Quality of Market Information on Entering Development	49	4. ExxonMobil Chemical Company	154		
		5. Kraft Foods Inc.	178
